## WDTIP Conversions

In February 2001 **Alameda** County successfully converted their data into TRAC (Tracking Recipients Across California). Alameda joins the other nine counties in sending daily files to be processed in WDTIP. As a result of the conversion, the records for Alameda, along with the nine other converted counties, contain data from the county systems. This insures that at the time of conversion, the TRAC database is a true replica of the source system.

## Tentative WDTIP County Data Conversion Schedule

The current list of tentative conversion dates, provided by each county/consortia, is included in the table below.

If you have any questions regarding the following conversion schedule, please contact Gloria Takagishi at (916) 229-3089 (email at [gtakagis@hwdcaws.cahwnet.gov](mailto:gtakagis@hwdcaws.cahwnet.gov)).

### **WDTIP System Functionality**

The WDTIP Application and Technical Teams implemented the fourth release of the WDTIP system on February 24, 2001. Incidents contained in this release are extracted from the WDTIP Prioritization List. Modifications will be made to both online and batch programs. Some modifications impact the end user. Refer to the January 2001 bulletin for specifics on the items contained in the release. The User Manual has been updated to reflect the changes and will be available from the WDTIP website ([www.wdtip.cahwnet.gov](http://www.wdtip.cahwnet.gov)) on March 7, 2001.

### **WDTIP System Training**

Just a reminder, all counties have the option of conducting their end-user training in the Production Region (TRAC) or the Training Region (TRAT) of the WDTIP system. The Training Region will be available to accommodate county end-user training through June 30, 2001. If you have questions about the Training Region, the training data or the Region's availability, please contact the WDTIP Help Desk. The WDTIP **System Training Curriculum** is available for viewing or downloading at the Project's website.
