Country Code

Business Description

A code indicating a geographical area in the world. This code is used in relationship to an individual to indicate two facts:

1. Where the person was born.
2. Where the person most recently held citizenship before migrating to the US.

Business Need

This information is used to identify multiple facts about an individual:

1. The country in which the individual was born.
2. The country in which the individual holds citizenship.
3. The country from which the individual migrated to the U.S. This is also called the Individual INS Country.

The country code is provided directly from SCI.

Comments

All TRAC Application screens utilize these error message codes as applicable. Additional error messages may be added during the maintenance and operations phase as necessary.

Exception Processing Reason Code

Business Description

The exception reason code and name identifies the batch error messages. These exception processing reason code and name provide a description of the error that occurred during the batch transmission.

Business Need

To identify the batch errors and to communicate these errors back to counties.

Comments

Although an effort was made to identify all possible batch error types that could occur during county file transmission, additional error types may be identified during maintenance phase. Therefore, this code table will continue to be modified as necessary.

If a processing exception occurs, an exception report is generated and sent to the consortia. It is the responsibility of the consortia to forward the report to the counties.

Gender Code

Business Description

A code that identifies the gender of the individual.

Business Need

The individual gender code can be used to assist in the identification of an individual. Statistics can also be generated based on this information.

The Gender Code is provided directly from SCI.

Standard Values

GENDER CODE	SHORT NAME	HELP TEXT
F	Female	Female
M	Male	Male
U	Unknown	Unknown

Comments

The TRAC Application screens utilize this code type as follows:

ISUM, IDET, ALID, KSUM, PSUM, PDET, TSUM, DSUM, DDET, ESUM, EDET, WSUM, TCAL, KCAL, WCAL, UNCP, UDIV, UCSR, USSO

Gender Code displays in the header of each screen, next to the row labeled SEX.

ISUM

Gender Code displays under the column labeled SEX.

Participant Type Code

Business Description

A code that identifies whether the individual is receiving aid as an adult or a child, as defined by MS 42-101.

Business Need

The individual participant type code is used to determine whether the TANF 60-month and CalWORKs 60-month clock should tick. Statistics may also be generated based on this information.

Standard Values

PARTICIPANT TYPE CODE	SHORT NAME	HELP TEXT
A	Adult	An Individual who is Defined as being Aided as an Adult in the AU
C	Child	An Individual who is Defined as being Aided as a Child in the AU

Program Exception Type Code displays next the row labeled EXCEPTION TYPE.

Program Exception Reason Type Code

Business Description

A code identifying specific reason for exceptions from the various time limits imposed by Welfare Reform.

Business Need

This information is used to determine whether the TANF 60-month, CalWORKs 60-month, or Welfare to Work 24-month (after January 01, 2013) clocks are ticking or stopped based on the particular exception.

This information is used for time clock calculation.

Standard Values

The values in the Program Exception Reason Type table listed below include four columns on the right side of the matrix, indicating how each item affects time limit clocks. Each column has the following meaning:

- TANF 60 FLAG – Is the TANF 60-month clock ticking when this exception exists?
- CW 60 FLAG – Is the CalWORKs 60-month clock ticking when this exception exists?
- WTW 24 FLAG – Is the Welfare to Work 24-month clock ticking when this exception exists?
- END DATE FLAG – A Yes/No indication of whether this Program Exception Type and Reason requires the user to define the Program Exception End Date at the time the Program Exception is added.

***Important note #1: For Program Exception Code 02 Sanction (with Reason codes 200, 201, 202, 203, 204, 205) and 05 Excluded Person (with Reason code 500), the county must first end-date the current aid by sending a CalWORKs program discontinuance transaction with a discontinuance date the month prior to the start date of the exception. If the county fails to send in a CalWORKs program discontinuance transaction to end-date the aid, the CalWORKs time clock will continue to tick. For example, if the county wants the Program Exception to start on November 1, 2005, the current CalWORKs Program Participation record (in PSUM screen) must have an end-date of October 31, 2005.**

***Important note #2: When a client is in a WTW Sanction status and receives Homeless Assistance (Program Type Codes 24 and/or 33) for the same month, their Time Clocks are not ticking under these circumstances, per CDSS Policy clarification.**

***Important note #3: The “CalWORKs 18/24-month” clock was in effect from January 01, 1998 – November 30, 2004 (as a result of All County Letter #04-41). The “Welfare to Work 24-month” clock went into effect on January 01, 2013 (as a result of All County Letter #12-67) and was eliminated on April 30, 2022 (as result of All County Letter #20-120).**

Program Participation System Code

Business Description

A code that indicates the source of the data contained in the record.

Business Need

To identify whether the source of the data came from either MEDS or County Welfare. This helps differentiate the MEDS records from the county records sent directly to the TRAC Application.

Standard Values

PROGRAM SOURCE CODE	SHORT NAME	HELP TEXT
MEDS	MEDS	The Medi-Cal Eligibility Data System (MEDS) is the Source of this Record
CTWF	County Welfare	The County Welfare Agency is the Source of this Record

Comments

These code values are system generated as records are written to the database. These codes are displayed on the Program Participation Update Screen, under PGMPT SYS CODE.

Program Participation Type Code

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards time limits.

Business Need

This table of combination values is necessary to accurately determine Welfare Reform time limits for individuals.

Program Participation Type Code 12/01/04

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards the time limits. These valid combinations are effective 12/01/04 as a result of All County Letter (ACL) 04-41, which states that the 18- or 24-month WTW time limit has been eliminated. The change was triggered by state legislation that aims to strengthen the work focus of the CalWORKs WTW program, allow individuals to receive the services and the skills necessary to obtain employment sooner, and help the state meet its work participation requirement.

Program Participation Type Code 10/01/06

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards the time limits. This valid combination is effective 10/01/06 as a result of All County Letter (ACL) 06-45, which establishes that aid code 35 had been redefined to specify the new funding source. The new aid code 35 will now claim two-parent families as federal commingled funded cases. A two-parent family in aid code 35 is an Assistance Unit (AU) that includes two aided parents of the same aided or SSI/SSP minor child (living in the home), unless both parents are aided minors and neither parent is the head-of household. This change will also apply to the Homeless Assistance Program for two-parent AUs.

The Federal/State Only Indicator is used to determine if an Aid Code impacts the Federal (TANF) or State (CalWORKs) time clocks for mixed federal/nonfederal AU cases. Valid values for the indicator are N = Not applicable, F = Federal clock, S = State clock. Default = N.

Program Participation Type Code 01/01/13

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards the time limits. These valid combinations are effective 01/01/13 as a result of All County Letter (ACL) 12-67, regarding the WTW 24-month time limit. The change was triggered by state legislation that aims to strengthen the work focus of the CalWORKs WTW program, allow individuals to receive the services and the skills necessary to obtain employment sooner, and help the state meet its work participation requirement.

Business Need

This table of combination values is necessary to accurately determine Welfare time limits for individuals.

Program Participation Type Code 01/01/17

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards the time limits. These valid combinations are effective 01/01/17 as a result of All County Letter (ACL) 17-01, regarding the Trafficking and Crime Victims Program (TCVAP). TCVAP data is being tracked for proper data reporting, fiscal claiming purposes, and insuring time limit on aid is not exceeded.

Any months with the 04/R1 (Program Type/Aid Code), prior to 01/01/2017 will not tick in the TRAC system.

Program Participation Type Code 01/01/18

Business Description

Facts describing a valid combination of a Program Type and Aid Type, and whether or not this combination counts towards the time limits. Pursuant to the passage of Assembly Bill (AB) 236 (Chapter 545, Status of 2017), as of January 01, 2018, CalWORKs families receiving FR services are eligible to receive temporary HA benefits, if the county determines that benefits are necessary for reunification to occur. These valid combinations are effective 01/01/18 as a result of All County Letter (ACL) 19-112, regarding CalWORKs Family Reunification (FR) cases that are issued Homeless Assistance (HA) benefits.

Program Type Code

Business Description

A unique code identifying a category of program benefits that a person or group of people can apply for and receive from an agency.

Business Need

Information used to determine specific program participation within an aid code.

Standard Values

This data element has two purposes:

1. Differentiate multiple programs when one aid code is used to authorize multiple programs.
2. Communicate to welfare-related agencies that may not know the definitions of the aid codes.

State Code

Business Description

A unique US Postal Service abbreviation for a state.

Business Need

This information has the following purposes:

- ❑ To identify an individual's birth state.
- ❑ To identify a state where an individual received prior non-California welfare benefits.
 This is necessary for accurate time tracking.

Note: The column TANF START DATE indicates the month that Federal TANF funds were initially expended in that state. This date does not necessarily represent the TANF approval date in a state.
